Teachers have been trained on some new learning activities to implement across their classrooms. Kids are practicing sounding out words in primary grades. Two new math special assignment teachers. School improvement plan – continue to work on learning goals. Focus this fall will be on co-creating success criteria. Students seem to retain information longer if they can articulate it is what they are learning if they can identify their mistakes and learning. Want students to build capacity within themselves to identify what they need to do in their work in order to move forward in their growth. Many spirit days have already taken place this month. More details will be shared at October meeting.
